

Full stack developer with four years of experience within the ESN Sopra Steria, I made the decision to start as a freelance. Rigorous, always looking for innovative solutions and curious to learn, I enjoy taking on new challenges. In addition, I am keen to share my knowledge and consider myself a teacher.

Framework)

Julien MAILLARD

FULL STACK DEVELOPER FREELANCE

Professional experiences in Sopra Steria

Cross-functional activities

2024-2025

I had the opportunity during 2024 to carry out actions that went beyond the scope of the SPRINT project.

- Trainee tutor
- Alternate tutor
- Time estimation for solutions
- Fix Deadlock Point on other projects

Full stack developer on the SPRINT project

2023-2025

Came directly to the topic as a technical leader within a team of five.

- Java
- Angular
- Ansible
- Cypress
- Kubernetes
- Terraform

Full stack developer on the CRACN project

2021-2023

Arrived in a team of fifteen people, I gradually increased my skills to become technical leader on the project

- Java
- Angular
- Jenkins

Studies

Engineering degree option Internet of Things

2021

École Supérieure d'Ingénieurs de Rennes

Scientific baccalaureate

2016

René Cassin High School , Montfort-sur-meuse

Languages

- French: Mother tongue
- English: Level B2 (obtaining the CLES and the TOEIC during my studies)
